I fish alot of water in both the Rangeley region and also the Moosehead Region. I kill every smallmouth bass that is in LL Salmon/Brook Trout waters. Bucket biology in this case is exactly as chaz has described. As for the comment it's too late. Not yet it isn't. I go to Maine to fish for Land Locked Salmon, Brook Trout, and Striped Bass. Kill every bass you catch if you can its good food for the black bears.
