Sipe,

Cold weather is your friend. The meadows will be frozen and easier to walk on. Nevertheless, there are many spring seeps and these are still soft. The meadows this time of year are straw colored - keep an eye out for bright green spots, that's where it's soft. Bring a wading staff to probe the soft areas. Trust me, even if you don't wade, a wading staff is very helpful along Letort.

Cloudy days usually fish best. Scuds and cress bugs are go-to flies but don't forget some small BWOs as well. Good luck with your trip.
