I'm not sure you're gonna get a lot of love in terms of specific streams Stagger, but I'd say there are some common "PA experiences" that I think a newbie to the state would enjoy experiencing...these aren't necessarily stream specific, just what I would recommend in terms of the different kinds of FFing PA has to offer.

In no specific order...

1. CV Limestoners (Letort, BS, FS, etc)
2. Hatches on the big central PA limestoners that look like freestoners (Penns, Little J, Spring, BFC, etc)
3. Hatches on the big NC PA freestoners (Kettle, THE Pine, etc)
4. Small stream/Brookie fishing (NC PA somewhere probably)
5. Steelhead (Erie tribs)
6. BIG water (by PA standards) for Trout (The upper D, Lehigh)
7. Smallie/WW fishing (Branches of the Susky or the lower reaches of one its bigger tribs, Juniata)
