We've had many threads on here about the best PA streams to fish.  
And the top five FF streams, usually came down to - in no particular order:

- Delaware River
- Penns creek
- Spring creek
- Fishing creek
- Little Juniata

However, they are not very easy for newbies IMO.

And, whenever I take someone fishing for the first time(s), I usually go to stocked streams.  
They have a better chance to catch fish, and gain some confidence in what they're doing
