Joe,

Slippery Rock creek which will be very close to you is an excellent smallmouth fishery and you may even get into some trout. There is a stretch of fly-fishing only water within a reasonable distance to your campground. Streamers like wooly buggers and fur leech patterns work well as do Clousers in chartruse and white. Wading can be a little hairy depending on water volume and they don't call it Slippery Rock for nothing!

Good luck!

Jeff
