Is there a requisite number of hours?

For the past couple of years, as a member of Delco Manning TU, we have been participating in the Chester-Ridley-Crum Watershed association spring cleanup. 1- 2 hours on a Saturday Morning.

They get volunteers all over Delaware County to go out and pick up trash both in and outside of streams. I would say most locations are roughly 30 minutes from KoP/Valley Forge. I am sure that someone would be willing to sign a form to acknowledge his participation.

GreenPA and iConserve PA are a couple of other organizations to google for possible clean up and volunteer opportunities. You may also want to check with local historical sites - pretty much everywhere looks for volunteers to help with spring cleanups, and even my youngest helped pick up cigarette butts in a plastic pail (with gloves on , of course) since he was 3. I am sure that a 12 year old can be even more helpful.

Good Luck.
