Tried that with the Rio stuff. Still stayed tacky. You get what you pay for. I bought like 5 tubes of it on clearance for like \$1.50 each. There's a reason it's so cheap :)

CCG is the way to go. I also got some of the Loon glitter powder for streamer heads. You mix it right in before hitting the light. It works, but I then realized you can get twice as much for \$4.99 at AC Moore than you get with a \$15 bottle of the Loon stuff.
