Yeah - the PA Delorme has guided me to countless WT streams. And it is the one book that goes with me on practically every fishing trip.

But they do tend to get rather beat up - and I've gone through at least 3-4 of them since they first came out.

And they really did dumb it down for the latest editions.

Fortunately, I came across a brand new 2003 edition at a local fly shop not long ago.

And shortly after that, I came cross a 1987 edition - with the yellow cover - in an antique store. It was like new, and I got it for \$5.

So, I have a stash of the older versions - that will last me, hopefully, for the rest of my life
