I usually tie zebra midges with silver not gold wire,

Same here, but they only had tungsten gold beadheads at Bass Pro that day.... so I matched the gold bead with gold wire.

Usually I use silver with a silver bead. I'm going to try some "crystal flash" around the thread body?

I'm also going to try a size 22 beadhead Walt's Worm. And a Walt's Worm with a small tail. I've got a pack of 25 of those tiny hooks and it's still snowing!
