Foxfire, you can use these types of loops if you like. There are no rules. For me I agree with some of the other guys. Nail knot or even better a needle knot. Just give it a try. You will be surprised how easy it is with a little practice. In fact I am a firm believer in learning to tie all the knots. Any of the people I teach I show them all the knots you could use. Every season, somewhere along the way I find an angler sitting on the side of a stream struggling with their leader. I usually offer to help. In a few mins. I can show them a knot that may save their day. But like I said there are no rules. I just think learning and using the classic knots adds even more fun to the sport.

Give it a try,

Gencon
