For woolybuggers I go with black, olive, brown, or white in that order or some combo of those like black & olive or brown & olive.

Orange or rusty brown would probably be good for river smallies.

Panfish love foam spiders, especially when they're shallow.

I just got some new tying materials (UV stuff, sculpin heads) and I'll be playing and experimenting over the next few days. If you want some buggers or czech nymphs PM your address and I'll send you some.
