If any of my PAFF brethen are coming to SoCal and want some advice of streams or a guide, just PM me. I have now caught fish (native bows and wild browns) in 5 different streams, biggest being maybe 12" but some of the prettiest scenery around. The other advice I would give is not to use metal studded boots. Most of the streams are nothing but granite boulders and trust me when I tell you, it is like ice skating with studs. I was much more comfortable yesterday without them. No more pics, rest of the week is work. 😞
