Hey Guys,

Having fished in the area a few years I am wondering if there are any streams that hold trout year round closer to the Bensalem area besides the Little Lehigh which is about an hour and 20 minutes. I know that Valley is 40 minutes from my house, but I was wondering if there was something a tad closer.....is there anything over on the Jersey side that would be closer?? I do not care if the stream holds wild trout year round, or is stocked..

PM me if you have any suggestions if you do not want to post it on the board.

thanks,  
steven
