It's that simple, and there's more water than you could fish in a year.

I've been living here for almost 20 years & haven't put a dent into it!

Get a copy of the Susquehannock & Tioga State Forest maps. These are the best FREE maps for driving around the backroads & fishing here. I'm working on a project of trout streams within a 10 mile radius of Galeton & have listed well over 20 streams that are worth fishing, & all hold wild fish.

I hear you! I've been going up to that area since I was a crawler. Just this past spring I discovered a new stream w/in 1/8 of a mile of my cabin. I had NO idea it was ever there! Its those gems that make that area of the state so rich. We could spend all day every day fishing and never exhaust it.
