I have been planning on buying a kayak for lake fishing for a couple of years now and just have not gotten around to it. John Shein's [book](#) is really worth buying. It's loaded with information. He also has a store in NJ that I cannot remember the name of, but maybe someone else knows or you can find it on the google. From what I heard he is very good at outfitting kayaks for fishing and has test rides etc.

Mike.
