Here are some web sights to check out. They not only sell stuff but most have instructional videos as well.

[breambugs.com](http://breambugs.com)

[smallmouthflyshop.com](http://smallmouthflyshop.com) & [tightlinesflyshop.com](http://tightlinesflyshop.com) (same people)

[flybass.com](http://flybass.com)

Also Rainy's flies made some foam bass poppers and hoppers that are really nice. I had an assortment box of them but can't find it and they're getting hard to find.
