I have a 15' bass boat that I take up to the lake. This last year I didn't go as often as I normally would because of 2 main reasons. The first one is the distance I now have to travel from Philadelphia to a decent lake is better than an hour. secondly, I normally go alone when I do take the boat out. My normal summer lake is Noximixon. (I'm versatile in my fishing and can use both spin/bait casting equipment and fly rod.) I have plenty of room for an additional person if anyone is interested. Send me a pm.
