Thirty years on that river doesn't make you all knowing but helps. Don't think about learning boat handling during Hendrickson hatch. Lot of nice guys could get testy in those big game land pools. Great years when we had the trailer at the drc campground but hurricaine Ivan ended that. There are hatches on the west branch all season long. Follow the release level and temps not air temp. You can be sweating our bu** off and be fishing some member of the sulphur family. Fall is great. Fished BWO's off the shehawken ramp for six hours taking a break for lunch in town. Some days you can't catch a fish under 16 inches. Great place.....let's keep it to our selves. Mums the word.
