Fox,

My best friend lives in Fresno California and you can see the Sierra Nevada Mountains from his house on clear days. Were you close to that area by any chance? I have only been there once and didn't get a chance to fish because I was there for his wedding. My friend claims to be a fly fisherman and really like it but since he has been living in Cali I don't think he has wet a line and he has been there for over 3 years now.

I would really like to fish the Kern River and even possibly head up to fish in the Redding California area on some of the spring creeks there.

I am not a wine and cheese kind of guy but I think a good combo would be wine tasting on off days and fly fishing the rest. I need to make this happen!
