My favorite past time in the summer is to wet wade our "trout" streams here in SW Pa, fishing for smallies. In all honesty, I like it equally as much--if not more at times--as trout fishing.

I do fish for bucketmouths in a few lakes including my favorite, Lake Arthur. I don't have a boat but, after fishing the lake for more than 30 years, I know where to wade for best results at various times of the year. I'm the only nut on the lake you'll find standing stomach deep next to beds of lily pads with a fly rod. I've also caught pike, muskie, carp and hybrid stripers in those pads.

I love bass fishing with a fly rod!
