I AM ELITE and don't you forget that. Where others have failed, I have succeeded with Fly rod in hand. And yes I can get trout with all of these items listed and more:

Fly fishing equip

Spin casting

Bait casting

Steal them off other fisherman's stringer without them knowing

JUST JOKING on the last one.

I would say it's more of myth than anything. We may like to think we are the elitest, or special because we use fly equipment, but the truth of the matter is "it is just a rod with a reel, line, lure, and an extension of our capabilities." Please do not tell this secret to anyone though. I enjoy keeping the world under this personage.
