Just wondering if anyone had some tips for fishing there. Thanks!

There's no secret to this stream, or any of the other Cumberland Valley major league streams. My usual advice when people ask about how to fish these creeks is to point out that the local trout in BS,FS, and Letort are bottom feeders and this is particularly true in winter. If you're interested in learning more about BS and similar waters (besides the great deal of info on this forum) I'd recommend Mike Heck's book *Spring Creek Strategies*. This will provide a very good foundation of information.
