I used the Orvis super strong for years, last year I switch to the new Dai riki tippet. I went into the feathered hook one day and two of the dai riki salesmen happened to be there and they gave me a couple of spools to try. They hooked 😊 me on it, been using it ever since.

A couple of ones I don't like are Umpqua, sci angler. If I have some I don't use I just give them to Maurice 😊

I gotta get Jonas to have another salesman in the store pitching a new tippet...I'm running low!
