Mike,

If my geography is right, you're close to the Mountain Laurel Chapter of TU (Johnstown). This chapter is very active in stream rehab; its guys know what they're doing and work hard. I think they have an online website where you could probably find out how to contact them. The last I knew, Randy Buchanan was the chapter's president. This chapter has done work in Bedford County and has actively helped the John Kennedy Chapter (Blair Co) with many of its projects.

I think if you get ahold of them, you might come up with some valuable help for your stream.

Good luck.
