Hey Fl. I was diggin' around in my old photo albums. Here is a scanned picture of one of those chunky wild rainbows from way back in the mid 80's out of Falling Springs. I really enjoy looking at my old pictures and remembering the old equipment we used back in the day (old beat up reel and a hand me down Shakespeare fiberglass rod). I was really just learning the basics on how to flyfish at that time and Falling Springs was a real challenge but the catches few as they were, were all memorable ones!
