In the colder months, I used to have a sweet Donegal tweed hat from Donegal Ireland. I've worn that hat since I was about 16 yrd old. Then, last October, I took a spill, face planted in the stream, got up and booked it to my car, and never thought about the hat. Never saw it since.

Now I just wear my Manchester United trucker hat. If its cold, I have a knit had I wear. I want to get a new fishing hat but I'm not into spending a lot of money on stuff like this.
