I have two favorites right now. I have the Orvis Mesh style Indiana Jones that is great for keeping the sun off and out of my face as well as keeps my ears and back of neck from getting sunburn. And than I have my Specially designed baseball cap that states, "Pease Bug Me" and has a Brown trout on it.

I miss a couple of my hats that I had specially designed, "Catch, Kiss and Release I lost at a lake in MO. And "You're Right, My Fly is Down" Not sure where that one went. However if you see it, let me know.

IT MUST BE SPRING FEVER WHEN WERE TALKING ABOUT FAV HATS!!
