I really want to thank all of you for your thoughts and comments. Here is where I am on this. Last year I bought a used 10 ft 5wt Powell to fish the Wb Upper Delaware. Cost on Ebay \$240. Love this rod. Last Powell to be manufactured in the USA. I suspect this might be too much for the EB of the Bitterroot. I have a 6ft Cabellas Tight Quarters which might be productive on the WB/EB of the Bitterroot. My 3rd rod and my working horse rod is my 8 foot 6 inch Fenwick. This is the rod I am thinking should be upgraded. Should I upgrade the Fenwick? And with what. Seems dumb to go 9 foot when I have the 10 foot Powell.
