Thanks brookie. I will be taking a ton of pictures of this adventure of the before, after, and such. I am eager to start the early phases of this and want to be involved in the stream assessments and such as much as I can be. The biggest thing is to ensure that anything that is done, will be done correctly, with much thought put into it. It will take a decent amount of time to get everything in place, with permits and such, and for the improvement areas to sustain more habitat and such.

I will be looking at setting my stream clean up for the weekend after the "Trout Rodeo" on the stream. I never participate in the rodeo, I probably should since i practically have these fish named ;)
