This sounds safe.

LOL, actually, Nick it is very safe. Any float tube in PA and you have to have a life vest on at all times.

This pontoon holds up to 600 lbs (I just started my juice diet yesterday, but in case I fell off the wagon, I wanted a safe thing)

You can't tip a pontoon over, like a canoe or kayak! With my flippers, I can stay in a spot to fly cast with no effort at all!

It's the safest craft in the water..... try it, you'll like it!
