While I'm still pretty new to fly fishing (only started last August), I have a hat that I will always use especially in the warmer months. It is a white stetson "dude" cowboy hat I bought last summer when I was in Colorado which is where and when I learned to fly fish from my fiance's uncle. Not only is it a great hat for fishing, but it also holds that sentimental value of the reminder of how I got into this awesome addiction we all enjoy :)
