I will throw mine out there

[The FlyFishing Bowhunter](#)

I had two others, but seemed to stick with this one better because it covers most all that I love...flyfishing and bowhunting

I write about my misadventures when I can get out there....gear reviews....the typical stuff

I really enjoy checking out what everyone is doing as well.

It is a lot of work, but I enjoy it even if no one really reads it, or its the most popular out there....its just fun to be able to go back and look at pics and read your old stories.
