Got to work with djs12354 in person today on his cdc/elk tying.

He also got a comparadun down pat the first shot. Nice work Dave!

A few tweaks here and there, and he's doing much better on the cdc/elk. Now tie up a bunch more. 

Thanks for taking the time to run up this way and work on the fly tying with me and Dan.

It was and is greatly appreciated. I'll be spending some time tomorrow working on the techniques

Dave
