Dave - It was a fun day, for sure.

I know I mentioned it while we were tying, but I just want you to know how impressive your tying is already. You do a lot of things instinctively that are very fundamentally sound.

That comparadun you tied is pretty impressive! I know guys that have been tying for years that can't tie one that good. You should post a picture of it.

Tie some comparaduns in 14's, then move down to 16's, then finally 18's. You'll need size 18's with the olive dubbing shortly (like NOW). Remember - the smaller the fly, the less deer hair for the wing.

BTW - your destination for next weekend is looking prime. 😊

H.A.
