Nice work Dave! A few tweaks here and there, and he's doing much better on the cdc/elk. Now tie up a bunch more. Here's a shot of the comparadun tiesd with a lot of hand holding..... It will be a while before the training wheels come off. Thanks again for the help! Second picture is one I just tied on my own. Looks like the deer hair is just a little sparse. Body could be better. Opinions?
