Fished the Yellow Breeches and The Run from 4pm until dark on Presidents Day. Air temp - 38 degrees. Water temp - cold to say the least.

There were three other anglers fishing. Two in the run, one down on the Breeches. One angler at the footbridge was benefiting from a mother and her son throwing bread to about 20 jumping trout in the pool below the bridge. I saw him hook up with a nice brown in the 5 mins I was rigging up. Not sure what he was using, but marketing a "wonderbread" fly pattern could be a lucrative idea. 😊

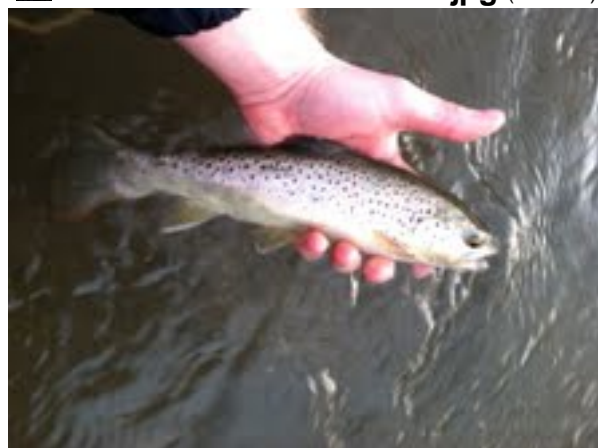

I have not been out in awhile and felt a bit rusty. It showed - I lost a quick two nymphs in a low hanging branch. So I moved to a wider area of the stream and tried dead drifting a few streamers - nothing.

I headed back to the run toward dark and tied on a green scud and a egg pattern. Quickly hooked up with two pretty feisty trout; a brown and a smaller rainbow. I lost one other decent sized brown. There was still an angler up by the bridge who looked to be doing well. Talked to him on my way out and he gave me two patterns he tied. Didn't get his name, but really appreciated the hospitality - I'm new to the area and the stream!
