a friend and I drove from clearfield, pa to jackson hole, wy

trip out took roughly 30 hours total with stops and screwing around, but we did it continuous

trip back was from sun valley, id with crappy weather and longer drive took almost 36 hours....

definitely saved money on plane tickets...at the time I ran the numbers it ended up being about \$600 savings each

real lesson: the drive out is easy with anticipation....the drive home sucked but at the time didn't suck \$600 worth
