These new "welded" no stitching waders are available now.

I wanted to purchase from a local fly shop? I kept calling the local shop in Hanover, (the shop Evening Rise in Lancaster went out of business) and the one in King of Prussia, but they didn't get them yet and only wanted to double talk me into buying some old waders that they have in stock! "silver label is all the same, come and see what we have.... they don't leak" LOL

It's always the same old song when I try to buy in a fly shop? I went online and purchased from Orvis..... and I will have these new welded waders by this Monday.

The trout streams are stocked, my old waders leak, spring is approaching ..... I had to go online again! I don't know why I waste my time in Fly Shops anymore?
