I find the online shopping experience to be easier for waders. Most fly shops don't carry a huge selection of sizes in waders so a lot of guys will just settle and buy whatever is available in the shop and not actually buy a pair that fits properly... if your buying waders especially a nice pair of waders it is always helpful to order online using the wader companies sizing charts. It can save you a lot of hassle. Those Orvis waders are really nice by the way... I would like to get a pair but I am waiting to hear some more reviews on them before I sink more money on expensive waders.
