iPhone Fishing App Testers Needed

URL:

I am looking for 3-5 serious Pennsylvania anglers who are also savvy about their iPhones to help me test the latest version of the GPS Fishing Guide to Pennsylvania for iPhone.

Unfortunately, I do not have the funds to pay you however if you would like to help me build the best fishing app possible, I could use your help.

Please understand that I will be giving preference to those who already own the app but am willing to entertain others. The key is that you are willing to communicate directly with me and play extensively with the app.

This new version is so loaded with features that I cannot possibly test it completely on my own prior to release. I want to wrap up the update and make it available to all by mid March so my timeline is short.

If interested, please use the pulldown where UFMGuy is listed and click email. Put "iPhone Tester" in the subject line and we'll start a dialogue. You may also use "PM" (Personal Message) but email is the best way to get started.

UFMGuy - Mike G.
