I have a Brodin net that I received as a gift for a donation to TU several years ago. It had a deep cloth bag that I never liked. I replaced the cloth bag with a rubber Ghost bag from Brodin. Keep in mind it was a Brodin net so I think the frame dimensions were pretty close to the replacement bag. I think you may be able to find other options for a replacement.

I guess another option might be to save the hand me down net - maybe hang it on a wall - since it has sentimental value and buy the Dick's net.
