I find the online shopping experience to be easier for waders. if your buying waders especially a nice pair of waders it is always helpful to order online Those Orvis waders are really nice by the way... I would like to get a pair but I am waiting to hear some more reviews

Nick,

Yeah, I'll post how they work after I use them a couple times. My waders should be here by Monday. Cold snow and rain with wind until Monday, so Monday is OK with me. It's the first nice day in a while.

My old waders had leaks in them, and I'm so tired of fixing the stupid things!

No more string stitching! These waders are melted together..... they look like they will last a long time.

I'm 6'4" and the fly shops never have the best size for me. I called and called for the past month, so I finally had to order online. Muddy and Breeches were just stocked, and the rest to follow soon ..... the season has started..... I need waders!
