Nikon D5000, Nikon D40, Olympus Stylus 850SW

+1 on the Olympus Stylus 850SW. IMO it's a great camera. It is small, lightweight, waterproof, shockproof and takes very good macro photos. Mine is always in my fishing vest.

The olympus is a good camera. Im not happy with the resolution of the pictures. Thats why i always carry one of my dslr with me all the time. Although they dont like water to much.

If your looking for a solid camera that will take a beating, the olympus stylus line is great for that.

That's one of the reasons I bought it, it's tough. I really have no complaints about the resolution. I have had quite a few 8x10's and 5x7's made and they are very clear.
