VERY NICE.....CONGRATULATIONS.....just one small thing.....maybe i'm wrong , but in the pic where you have the brown stretched out on the ice along side your rod n reel , brown 1 jpg..... do you think it's a good idea to have the fish laying on the ice like that , seems you are being pretty rough on a fish that you seem to care alot about. Nice picture and thanks for lettin us all see it and being part of the adventure , i hope , for your sake , that he made it through without damage.
