I tie a short piece (3-4") of 20lb nail knoted to my fly line then blood knot 50lb flouro. The 20lb is my break point if needed. The 50 is about 4-5 feet long with a loop on the end large enough I can loop to loop my fly and bite guard thru. All my flies have about 12 inches of 80lb flouro pre tied to them so that I can make changes easy.
