That's a cop-out if I ever heard one! :)

I think everyone would agree that in any month, fishing is better than not fishing. None of us want to pick a month and hang it up the rest of the year! I think the OP was about which month is your favorite?

I know when we were out this weekend we routinely said "that cast woulda been perfect if it were spring". Not that I didn't enjoy myself. But I did wish it were spring.
