Why that are isn't isn't FFO, who knows??

It was FFO originally.

It was switched to Artificial Lures C&R in the early 80s as part of a consolidation of special regulation areas. I see spin guys there fairly frequently - usually it's young fellas and usually this time of year. They tend to fish more at the upper section and on The Run. I'm glad they're there and I'm happy seeing these (often teenagers) out enjoying a day of fishing. Many of these young fellas will transition to FFing as they advance in their evolution as trout anglers.

Over the course of a season, however, it's mostly FFers on the YB reg water.
