Stagger, yes I feel both the Saucon and Little Bushkill are quality streams. I fish them both and do very well. Some guys don't seem to like little Bushkill because it is not in a pristeen area. But it has some great fish in it. Lots of wild browns. I have had fish there up to 18". And I have heard and seen pictures of bigger ones. For me it is also close to home. Saucon 30 mins, Little Bushkill 40 mins. If you have any intrest send me a pm. I will give you more info.
