And Mike Pa is not very well known for having outstanding fishing. The best thing we have are our trout streams which they do everything in there power to screw up (think big spring). I think I went a little far blaming them for Marburg. The fact is the state is broke they can not really offer much help.

Its just sad that we drained Shepperd Myers and other small lakes in a state that does not have many good places to fish warm water fish. Most of the time when you want to get the boat out you know that means you will be doing a little driving.
