Just got a phone call from one friend and another private message from a competitor asking if I was interested or knew anybody that would be interested in controlling the competition next weekend. Saturday and Sunday at State College. I am pretty sure I am gonna go help. You can really learn a lot from these things and if you are interested shoot me a pm. I can give you a phone number to call. If anybody is in the Lehigh Valley area and wants to car pool or share a hotel room we can do that. If anybody in State College has a heated shed for me to sleep, let me know. Lol

Mods if this is the wrong area for this I apologize and feel free to move.
